

Hopkinsville Kentuckian.

CHAS. M. MCACHAM, Editor.

FRIDAY, APRIL 12, 1890.

HOPKINSVILLE, KENTUCKY.

A live and growing city of 5,000 inhabitants, situated in a country of 10,000. The Louisville and Nashville two lines of railroad in the county and the people have recently voted to build new roads. Largest tobacco growing county in the world. Wheat, corn, hay, coal, live stock and fruits produced for export in large quantities. The city has four banks with an aggregate capital of \$1,000,000. A planing mill and wagon factory, three carriage factories, lime factory, tobacco manufacturer, two foundries, three brick yards, broom factory, steam laundry, ice factory, two large flouring mills in the city and several in the county. Splendid driving park and fine opera house. Five theatres centering in Hopkinsville. Building and Loan Association, Commercial Club, a telephone exchange, numbered streets and houses and city lighted by gas. Manufactured streets and brick sidewalks all over the city. Eleven churches, two colleges, a high school and the finest system of public schools, white and colored, in the State. Western Kentucky Lunatic Asylum with a population of 600, two miles east of the city. A \$100,000 court house with town clock in the dome. A fine fire department and a company of State Guards. Little River furnishes an adequate supply of water for all purposes. Real estate low and rents cheap. Fine opening for wooden mill, pork packing establishment, fruit canner, restaurant and many other enterprises. Climate mild and invigorating and exceedingly healthy.

Don't had - \$500,000 fire Tuesday. Property insured.

Four men were killed by the explosion of a boiler in a saw mill at Junction City, Ky., Monday.

The Kentucky Grand Lodge Knights of Honor held its regular biennial session in Louisville this week.

Both Germany and the United States have agreed to send no vessels to Samoa until after the Berlin conference.

Savannah seems to be playing it hard lines this month. She had another \$100,000 fire Tuesday, with only \$54,000 insurance.

Sir Julian Pauncefote, the new British Minister to Washington, will sail for New York to-morrow. His family will not come until autumn.

A society of the Sons of the Revolution, composed of descendants of Revolutionary soldiers, was organized at Frankfort Monday with about forty members. Another meeting will be held on the 23rd inst.

Gov. Taylor vetoed at the last moment a bill to move the penitentiary of Tennessee and the Legislature instead of adjourning took a recess, and will meet again in May to pass the bill over the Governor's veto.

The Daily Journal, of Henderson, starts out in good style and has at once met the expectations of its friends, who, knowing the fitness of the projectors for the work undertaken, expected nothing but a creditable and wide-awake daily.

While the President was appointing as a day of thanksgiving the centennial anniversary of the day one George Washington went into office, he was engaged in removing another George Washington from the post-office at Bay City, Mich., to make room for a Republican. The present George is a Democrat and not even his great name could save his official head.

Mr. "Dal" Powell, the groceryman, was surprised yesterday on taking the eggs from the chicken coop to find an egg on which was inscribed in raised letters the words "The Coming Christ." The fruit was exhibited to several parties yesterday and there were various theories about the phenomena. It was the work of some jolly joker, who slipped it into the coop and exchanged it for a freshly laid specimen—Paducah Standard.

The Henderson Gleaner and News are both opposing the proposition to vote aid to the new railroad from Henderson to Bowling Green. It does not speak well for the city's enterprise when two out of three of their newspapers are outspoken in their opposition to the building of railroads, that would not only greatly benefit the people but add largely to the taxable property of the city. With the opposition of her press, aided by her mischievous and "corned-chow-chow" objectors, Henderson is in a fair way to lose this very desirable line.

Ex-Sheriff White, of McLean county, was converted at a protracted meeting not long ago and confessed to having swindled the county out of \$100 in 1876 and pulled out the money and paid it over to the preacher for the county, at the same time promising to pay the interest as soon as he found out the amount. The affair has been widely commented on by the newspapers. It is now regarded as probable that White will be indicted in July and tried for embezzlement on his own confession and his religion may cause him to serve a term in the penitentiary.

A large delegation of business men from Louisville visited Owensboro and Henderson this week and were welcomed and dined at both places. Governor Buckner, Auditor Hewitt and Treasurer Sharpe, of Frankfort, accompanied the party. The delegation was worked up and headed by Young E. Allison, who is doing a touch as any man in the State to promote the business and commercial interests of the commonwealth through the Commercial Club movement. Hopkinsville would be glad of any opportunity to welcome a similar delegation.

The Danville Advocate contains this allusion to Mrs. McAfee who expects to lecture in Hopkinsville at an early date: "Mrs. Nellie Marshall McAfee's lecture on 'Is Marriage a Failure?' at the court house last Thursday night was listened to by an appreciative audience. The lecture itself was an intellectual treat, her every word a 'jewel.' Should she ever repeat her lecture here the hall will be crowded to its utmost. Her solution to this important question is the only true one, and every woman in the south would be benefited by her lecture should they have an opportunity to hear her. Woman's suffrage receives a neat but emphatic scoring at her hands and she shows how and why it is and should be a failure. She says it is every woman's duty to 'marry' but 'only' for love."

A Kansas dispatch says a reliable man just from Oklahoma says he got onto the fact that boomers, hundreds of whom are hid in the thick brush on the many streams in that country, have combined on a plan to burn all the bridges on the Santa Fe road on the night of April 21, or sooner, so that no train can get into Oklahoma on the 22d. He says the boomers wear they are going to have the claims they have staked off at whatever cost. People bound for Oklahoma are arriving here daily from all over the Union, and excitement runs high. Thirty-five wagons arrived from Mead and Comanche counties to-day and camped just west of town to await the proper time to move to Oklahoma.

Here is sentiment for you from the Nashville American:

The Delaware Legislature has been foolishly trying to legislate against runaway marriages. It might as well undertake to control the winds, the tides, the seasons, the revolution of the earth around the sun or upon its axis or to control anything else which is utterly uncontrollable. When the Delaware Legislature is able to abolish the bloom on beauty's cheek, repeal the soft glance of a maiden's eye and clog with penal statutes the flow of the youthful blood, then it may hope to do what stern fathers, good lawmen and cross dogs have been vainly attempting to accomplish for centuries.

The Century Magazine for April contains a fac simile of the page of the Bible which George Washington kissed when he took the oath of office a hundred years ago. The most interesting verse upon the page is the following: "Benjamin shall raven as a wolf; in the morning he shall devour the prey, and at night he shall divide the spoil." The New York Evening Post thinks this was a singularly prophetic vision of what was to occur a century later, when Benjamin Harrison has to give the night to the division of the spoil among the importunate beggars who besiege him by day.

The control of the Rhode Island legislature has been decided at last, the Republicans having a majority of 10 or 12 on joint ballot. This insures the election of the Republican state ticket, which ran 4,900 votes behind the Democratic ticket.

MONTANA DEMOCRATIC.

Elections Indicate the New State Will Be Democratic.

New York, April 9.—A special from Butte, Mont., to the World says:

Reports from Anaconda, Deer Lodge and Missoula show that they, as well as this city, went Democratic, while Helena, Bozeman and Great Falls went Republican. Sixty per cent. of the vote lies west of the Rocky Mountain range. Yesterday's election is conceded by the most conservative Republicans to mean two United States Senators and a Representative for the Democrats. Mr. Clark, the candidate for delegate to Congress last fall, and Marcus Daly, Manager of the great Anaconda Works, labored for the Democrats. In Butte City the Republicans elected two Aldermen out of seven, the Democrats electing the Mayor, Treasurer, City Attorney and the rest of the Democratic ticket. Anaconda, which went Republican last fall, now goes Democratic by 650. Butte went Republican last fall by 1,500, it is now Democratic by 380, as is Missoula by 500. The Democrats evidently have combined to carry the new State of Montana.

Deafness Can't be Cured.

by local application, as they can not reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we can not cure by taking Hall's Catarrh Cure. Send for circulars, free.

DEVOURING FLAMES.

A SECOND FIRE VISITS PRINCETON AND DESTROYS SEVERAL FINE BUILDINGS.

List of the Losses Sustained.

At 5 o'clock Monday morning a fire broke out in the Powell block at Princeton, Ky. The flames quickly spread to the Foerg building adjoining and in two hours some of the most valuable property in Princeton was destroyed. The town only a short time ago suffered a similar visitation, by which she lost heavily.

The Powell building, totally destroyed, was occupied by Kevill & Brown and J. A. Steger & Co., dry goods and clothing; the second story was occupied by the Old Fellows, Knights of Pythias and Good Templars, the insurance office of J. S. Hawthorne and the office of Dr. McNary & Miller, and the Opera House on the third story.

Kevill & Brown's stock was valued at \$12,000, insured for \$5,000, a small portion saved.

J. A. Steger & Co. had just opened a \$100,000 stock, upon which there was \$6,000 insurance. About half the stock was saved.

The Old Fellows and Knights of Pythias lost all their lodge equipments, regalia, etc. The knights suffered by the other fire also, when their new uniforms were all destroyed.

The Foerg building, which was totally lost, was occupied by A. C. Mayes & Son, confectioneries and toys, and Kaufman & Goldsamer, dry goods. Both stores were valued at \$8,000, partially insured. Kaufman's warehouse, which joined this building from the rear, was slightly injured.

The burnt buildings were both new ones, and among the most valuable in town. The Powell building was valued at \$10,000, partially insured.

The total loss will be something near \$60,000, including the losses sustained by the lodges and the opera house. The insurance may probably reach \$35,000. As in the former fire, it is supposed to be the work of an incendiary. Suspicious are well founded in both cases, and the National Board of Underwriters of New York has offered a reward of \$500 for the arrest and conviction of the fire bug. It is to be hoped that Princeton will realize fully her necessity and immediately provide herself with a fire engine.

A NARROW ESCAPE.

The Clarksville Progress says: Mr. S. S. Lander, of this city, dived on the Princeton train, narrowly escaped being burned in the destructive fire at Princeton yesterday morning. He roomed in the Powell block, immediately over the store of Kevill & Brown, where the fire originated. He arose yesterday morning a few minutes before five and could see no sign of smoke either in his room or in the store as he passed by. He walked out to the depot, a distance of half a mile and by the time he reached the platform the alarm had been sounded and great clouds of smoke could be seen. In twenty minutes after he left, the building had fallen in and if he had slept a few minutes later, probably would have perished.

STATE INDUSTRIAL NOTES.

At Beattyville a contract has been made with brickmakers to burn 500,000 brick, the work to commence at once.

Messrs. Sacra & Sanders are erecting a large planing mill at Midway, which, when completed, will give employment to a number of hands.

At Jellico the Bird Eye Coal Company are about to build a coal road six miles and a half long, and will equip it with a new locomotive. An elevator and reclaimer will also be put in at the mines.

A citizen of Georgetown, a wealthy farmer, has expressed a willingness to subscribe \$10,000 toward an establishment for the manufacture of farming implements. The Commercial Club has taken the matter in hand.

The demand for residences at Hopkinsville continues without abatement. Real-estate agents say that they have not a vacant dwelling. In consequence a number of eligible dwellings are going up on several streets for immediate occupancy.

A work company with W. C. Owens as manager, intend putting in a paper mill plant at Somerset just as soon as the necessary arrangements can be made. The idea at this time is to put in machinery for the manufacture of wood and straw paper.

Mr. J. D. Ware is preparing to build a large steamship at Hopkinsville near the college, on Ninth street. The big tobacco warehouse now building for the Gant & Galtier Company by Mr. J. C. Latham, of New York, is being pushed forward as fast as possible.

The United States Government is now putting in a new dam at Beattyville, which will give slack water ten or fifteen miles up the Three Forks. Messrs. Dickerson & Crawford have arranged to put a saw mill at this place, and have shipped their machinery. This mill will not only saw lumber, but will turn out flooring and shingles. Messrs. Hogg & Flannery have bought their site and will also erect a saw mill plant, here at once.

Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when constipated or bilious. For sale in 50 cents and \$1.00 bottles by all leading druggists.

THE LETTER MORGUE.

The Queer Things to Be Seen in the Dead-Letter Office at Washington.

There is no silent horror, but only a lively interest, upon entering the Dead-Letter Office at Washington.

"Twenty thousand letters received here daily."

"The mass of information given by the bright and courteous lady who presides over the curiosity room. 'And nearly one-half of them can never be sent on our back, because of illegibility of the address or some other cause.'"

"The inclosures are kept two years, then, if still unclaimed, are sold at auction. The room is lined with cases, in which the curiosities are very artistically arranged."

Here was a fireman's axe. Improper weight and a sharp instrument not properly protected were the reasons for its detention. There were a number of revolvers arranged on the back of the cases. It is contrary to law to send fire-arms through the mail.

"Oh! here is a human ear," one remarked, wondering at the singular token.

"Yes, that came in a newspaper. We do not know by whom it was sent. Here is an asp, and that is a tarantula—both quite startling creatures to find upon opening a box. They both came through alive," said the attendant, "and that is against the law, you know. We always have live curiosities chloroformed and preserved in liquor. We are quite careful in opening packages, for we never know what sort of pets we are going to find."

"Here are some horned toads. I have had two-toads for pets for months at a time."

"Snakes!" exclaimed one of our party, pointing toward some large glass cases. "Did they come through alive?"

"Yes, indeed." "En passant, it is very amusing to hear Washingtonians say, 'Yes, indeed,' with the emphasis on 'yes,' and the 'indeed' sliding along as though the expression were one of the pleasures of life."

"Yes, indeed," she answered. "There were sixteen of them, sent from Tucson on route for Heidelberg, for scientific purposes. They were in perforated tin cans, were detected and sent here. A boy brought the cans in a bag, but one snake got away. A lady at the chief's desk, three days after, felt something about her foot. Looking down, there was the snake. He had been in one of the drawers of the chief's desk for those three days. Was she frightened? Well, there are few things that we ladies dislike more than snakes, you know."

"Here is a scap!" "Yes; it is the scap of a young Indian girl about eighteen or twenty years old. We were told so by an expert in such things—the hair, face and black and straight, you see, prepared with care to be fastened in the belt."

"Here are some balls of opium. You notice they were disguised in a covering of candy. And here is a beautiful, large etching, exquisitely done. It seems a pity that it should not have reached its destination, but we could not help it."

She stopped to the desk, and took from one of the drawers a book, opening it for our inspection. In it were posted the addresses of slaves of envelopes. Some of these addresses indicated a close acquaintance with photographic spelling, as "Ti Ti, Ga," was spelled "Tight I, Ga," and "Springerville, Arizona," was spelled "Spengel Bil, Arizona."—Detroit Free Press.
